

ALEMDAĞ EMLAK KONUT SECONDARY SCHOOL e-Safety Policy and Integration to Curriculum

With the rapid development of technology, it was inevitable that every school had a School Security Policy. Because stakeholders can access the Internet in a variety of ways from the school building today. As a part of our daily lives, we all live with digital technologies. To ensure that our children know how to best use the opportunities available through digital technologies, it is now necessary to know and understand how to use them. In order to ensure that this is done in the safest and safest possible environment, we have a clear and concise Safe Internet School Policy that attracts our students' attention at home, at school or outdoors, or when they are alone.

E-SECURITY CURRICULUM INTEGRATION POLICY:

- 1. In our school, there is an interactive board and Fatih internet access network in all areas of lecture. In the lectures, eba education portal is frequently used. Fatih internet access network is used with network security filter.
- 2. Our school has a web site, it does not have social networks such as Facebook and Instagram.
- 3. Interactive boards are used in the control of teachers with security setup. Seminars are organized for students to develop their knowledge, skills and attitudes about the use of conscious and safe internet. Students are provided with proper processing in the related courses.
- 4. In our school, cell phones are kept in closed position during the lessons and they are placed in a special section for phones.
- 5. E-Security brochures are distributed to all school teachers, students and parents by the Information Technology Teacher. Seminars on topics such as ICT dependency, correct and safe use of ICT, and cyber bullying are regularly organized by the guidance service. These seminars are provided by ICT experts and / or police officers.
- 6. In our school, there are fixed panels for correct and safe use of ICT.
- 7. Due to the intensive use of interactive boards, conqueror access network and eba education portal in our school, accurate and safe use of ICT in each group by the teachers of teachers decisions are taken and the students are informed in this direction.
- 8. The teachers of our school received distance and face-to-face trainings on the issues of cyber bullying, correct and safe use of ICT by the Ministry of National Education.
- 9.. Safer Internet Day "is celebrated in our school.

- 10. On the website of our school, on e-security, https://www.esafetylabel.eu/ site and videos and posters for students and parents quoted here. Our school stakeholders can get information about the subject at any time.
- 11. At our school's safe internet day celebrations, information brochures from the https://www.esafetylabel.eu/ site are distributed in the seminars about the subject.
- 12. Internet ethics and secure internet use are taught to our students in the information technologies course.
- 13. In our school, 21st century communication skills are considered. In this regard, the students are encouraged to develop ICT usage skills.
- 14. In our school, awareness-raising activities are carried out on our stakeholders about becoming a digital citizen.
- 15. E-Twinning projects provide safe internet studies and students are aware of the use of secure internet.
- 16. Our work is on the e-Twinning portal.
- 17. The school administration and our teachers are guided to eTwinning on line training eba platform and encouraged to complete e-security training.

PURPOSE OF E-SECURITY POLICY IN OUR SCHOOL;
